FOR IMMEDIATE RELEASE

CUMMING EARNS A SPOT ON THE COVETED 2015 INC. 5000 LIST; RECOGNIZED ACROSS THE CONSTRUCTION INDUSTRY FOR CONTINUED GROWTH

SAN DIEGO - (Aug. 13, 2015) – [Cumming](#), an international project management and cost consulting firm, announced today it earned a spot on the prestigious 2015 Inc. 5000 list, an annual list of the fastest-growing private companies in the United States.

The 2015 Inc. 5000 list of fastest-growing companies is ranked according to percentage revenue growth when comparing 2011 to 2014. Cumming's three-year international revenue growth of 61 percent has been supported by recent cost, project and construction management assignments. Recent projects include contracts for Marriott International; Kaiser Permanente; Facebook; Disney; Mercedes-Benz; Neiman Marcus; Hilton Worldwide; Starwood Hotels and Resorts Worldwide; Anaheim Union High School District; Charleston County School District; University of California, Los Angeles; University of California, Berkeley; and LA Metro, among many other clients.

"We have a track record of consistently adding value to our clients' projects, helping them achieve their construction and development-related goals," said Peter Heald, President at Cumming. "Our continued strategic growth has been supported by our worldwide team continuing to bring even the most complex and sensitive projects in on-time and on-budget."

In addition to making the 2015 Inc. 5000 list, Cumming has also been honored with recognition from several leading business and trade publications throughout the year.

Earlier this summer, Cumming was once again ranked highest among all San Diego-based construction management firms by *Engineering News-Record* (ENR), a leading architecture, engineering, and construction (A/E/C) trade publication. This year's ranking also puts Cumming in the top five in all of California. Cumming was first named to ENR's Top 100 Construction Management for Fee list in 2005, and continues to receive the honor, ranking in the top 40 nationally every year since 2008. Among U.S. firms who are strictly Owner's Representatives, Cumming consistently ranks in the top five nationwide.

Building Design + Construction, another prominent A/E/C industry publication, also recognized Cumming on its annual list of the 75 largest construction management companies across the U.S. on its Giants 300 Report, earning the 13th spot.

Rounding out the awards this year, the *San Diego Business Journal* acknowledged Cumming on its 2015 Fastest-Growing Private Companies list, ranking the company in the top 100 for San Diego-based businesses across all sectors and sizes.

Specializing in project, construction, and cost management and controls services, Cumming's portfolio includes work across a broad range of sectors. The firm has more than 100 assignments underway at any given time, and has worked on projects worldwide with a collective value in excess of \$100 billion.
